## ABOUT ME

I works as a programmer since 2017, I specialize in as frontend developer who makes new projects and advances existing ones. I am independent but also I good feel in team work where together we can develop our competencies.

I am person who not only creates code, but also engages in the full scope of the design process. I will be happy to share my experience and knowledge to create unique solutions together.

## EXPERIENCE

### Frontend Developer, Home.pl S.A. - from 10 may 2022 to now

I work as a frontend developer in a team that develops an engine for building static websites based on CMS, design system and e-commerce functionalities for our product.

### Web Developer, Intermania Wadowice - from 2017 to 10 may 2022

I mainly coded websites based on the Wordpress CMS. I took an active part in every process of creating the website, from talking with client, creating design in Figma, to the final product.

## PORTFOLIO
